

CLEANING GUIDE

HOW TO CLEAN YOUR STERLING SILVER JEWELLERY AT HOME

Method 1: Combine vinegar and baking soda

- Mix ½ cup of white vinegar and 2 tablespoons of baking soda in a bowl of lukewarm water.
 - Let your jewellery soak in the mixture for two – three hours.
 - Rinse gently under clean lukewarm water.
 - Optional (polish after for that extra shine).

Method 2: Soap in water

- In a small bowl, stir a couple drops of dish washing liquid soap into warm water to create foam.
 - Let your jewellery sit in the solution for about 5 minutes.
- Use a toothbrush to gently scrub away any tarnish from any crevices in the jewellery.
 - Rinse each piece in a bowl of clean, warm water.
 - Optional (polish after for that extra shine).
